Schneider
Electric

Schneider
& Co.

Schneider Electric leads the digital transformation of Energy Management and Automation

Key figures for 2022

~5% of revenues devoted to R&D

€34 billion

2022 revenues

128,000+

Employees in over 100 countries

€16 billion

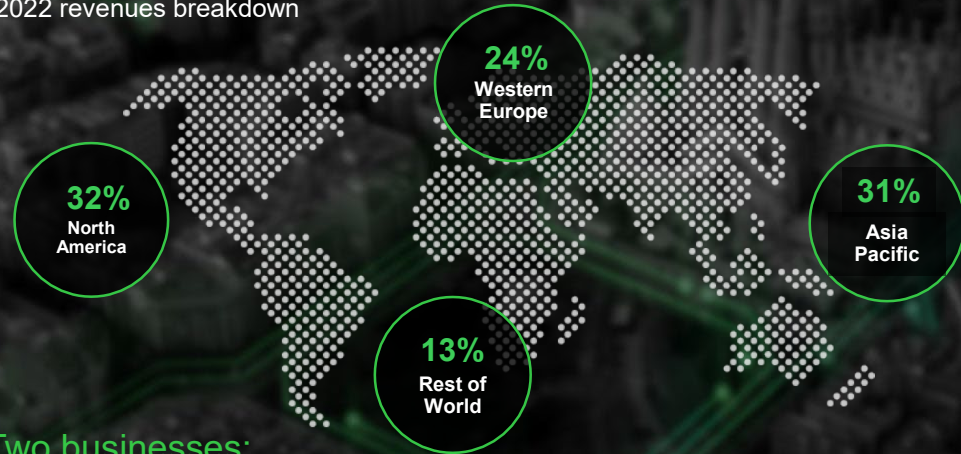

2023 procurement spend

200+

Plants and distribution centers

A well-balanced global presence

2022 revenues breakdown

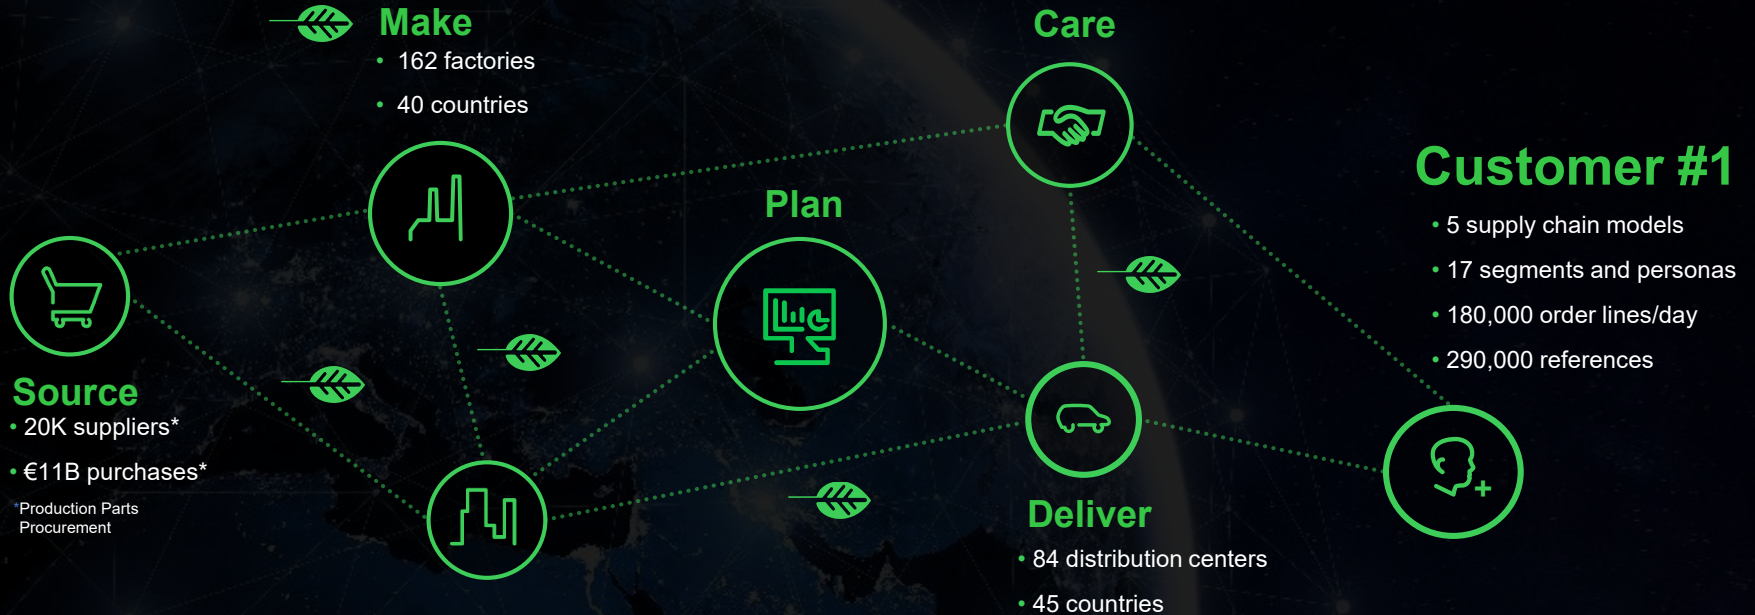

Two businesses:

Digitally connected to delight our customers

A vast global network of networks covering the end-to-end value chain

+80,000 employees in Supply Chain

Market trends impacting supply chain in North America

Energy Security & Electrification

A record \$141 billion in energy transition financing was deployed in the U.S. in 2022 for clean energy, including renewables, electric vehicles and other technologies

Source: Utility Dive
March 7, 2023

Reshoring & Nearshoring

62% of manufacturers with revenues between \$550 M and \$50 B are reshoring their production facilities

Source: Palm Beach Research Group February 16, 2023

US Companies reshored 364,000 jobs last year

Source: Wall Street Journal
March 23, 2023

Impacts from Government Incentives

Since IIJA was enacted, over \$10B was released in 2022 to projects across segments we serve, with \$200B over the next 5 years.

The Inflation Reduction Act will offer tax credits to our customers with additional rebates for household electrification updates.

Labor Shortages

3.6% unemployment rate February 2023

Source: US Bureau of Labor Statistics

Inflation & Cost of Capital

6.0% annual inflation rate through February 2023

Source: US Bureau of Labor Statistics

The world has had to reset, and so must we

our Market

All Electric World

Electricity is the most efficient energy for operations

All Digital World

Automated, digitized & connected operations, end to end

More Multi-local World

Geo-political differences more visible
Solutions tailored to local needs

More Sustainability Focused

Social activism and aspirations on the rise;
Greater focus on climate change and equity

our Society

New Workforce

Diverse, digital and an open talent ecosystem

New Ways of Working

Flexibility and empowerment guide where and when work happens. Rising importance of well being

Life Is On

STRIVE for the best together

We strive to be the most agile, innovative, planet- and customer-centric supply chain

Life Is On

Schneider
Electric

Resilient

Our customers trust us for our resilience and agility

Cybersecure

- Cybersecure **offers, sites, and suppliers**
- Invest in solutions (both IT and OT) to be **cyber resilient**
- **Increase awareness of the people:** act with cybersecurity in mind at all times, everywhere.

Power of two

- **Power of two** for critical ranges
- Increase **time to survive** with tactical buffer capacity
- **Double sourcing** for high business impact parts

Professional business continuity plan

- Professional business continuity plans **in core factories and distribution centers**
- Grow our **modeling capabilities:** embedded risk identification and mitigation

Capacity Management – Be Future Ready

Animate: CAMA Guideline

- **30%** buffer capacity over peak month demand
- **CAMA Green**
 - 4000 hours/year (Manual)
 - 6000 hours/year (Auto)

Action Plan: CAMA **Green**

- LEAN & Continuous Improvement
- CAPEX • Rebalance • Outsourcing

Anticipate

- Understand **right mix, seasonality & growth** – Supply Chain Planning
- Interlock with Business Unit for **market trend**

STRIVE for the best together

Suppliers Partners are part of our Supply Chain

Ethics & Sustainability

- Responsible **Sourcing**
- The **Zero Carbon Project**
- Schneider Electric is **ready to help**

Quality

- Aim for outstanding **Supply Quality**
- Secure **material buffers** before interruptions
- Apply Supplier Quality **Golden Rules**

Resilience

- Support **Growth**, Just In Time to **Just In Case**
- **Capacity** Planning & Management
- Transparent & Collaborative **Planning**

Investing in Upstream Performance to Drive Supply Reliability

Dedicated Resources, Enhanced Material Planning, and Supplier Performance Assessment

A new normal requires a new approach:
Time to Recover vs Time to Survive

Plan for Every Part

Timely Resolution of Upstream Constraints Critical to Unlock NAMs Growth Potential

630 Actions Identified

Resources to Drive Resolution

Evaluated Supplier Performance

- On-Time Delivery
- Supplier Health
- Time to Recover
- Capacity Assessment
- Labor Availability
- Raw Material

EcoStruxure™ Smart Factory & Distribution Centers enables not only Optimization but more Resilience

EcoStruxure's integrated architecture serves four end markets with its six domains of expertise

- Remote functionalities play a key role to keep factory running effectively during COVID crisis:
 - E-FAT: remote Factory Acceptance Test
 - Lean Digitization System: remote SIM meeting
 - EcoStruxure Machine Advisor: remote maintenance
 - ...
- Optimize end-to-end efficiency, energy efficiency, asset reliability and deliver customer value.
- “Standard at the core – Tailored at the edge” approach to deploy at 200 factories & 100 Distribution Centers.

NAM Digital Transformation Journey

From Smart Factory to Smart Operations and beyond

SMART Factory (2018 - 2020)

- 2 Showcase SMART Factories
- 20 SMART Factory sites

Tools Deployed *(Powered by EcoStruxure™)*

- Apps and Analytics
- Edge
- Connected Products

Key Achievements

- World Economic Forum Advanced Manufacturing Lighthouse – Lexington, KY
- 1500+ Customer Visits

SMART Operations (2021 - 2023)

Smart Operations *Powered by EcoStruxure*

- Scaling Connected Machines
- Predictive Analytics
- Machine Learning

End-to-End Digitization

- End to End Data Visualization
- Smart/Autonomous Planning

Autonomous Supply Chain

- Robotic Process Automation
- Data Analytics
- Innovation (Artificial Intelligence / 5G)

Connect / Descriptive Analytics

Diagnostic Analytics

Predictive Analytics

Prescriptive/Cognitive Analytics

NAM Digital Transformation Competency Plan

Upskilling for All

Digitization accelerates procurement and supplier visibility & resilience

The digital platform is pivotal during COVID crisis to provide real-time visibility

Schneider Supplier Portal

Procurement analytics

Cloud e-procurement for indirect procurement

End to End Control Tower – “Connecting all the dots”

Building End-to-End (E2E) Visibility

Capabilities & Customer benefits

- End to End real time visibility & orchestration of all supply chain nodes and flows
- Increases efficiency & resilience & agility of the E2E Supply Chain
- Improves **perfect order**: seamless order-to-delivery experience for our customers
- Better **response to supply chain disruptions & risk Management**: +100 events managed per year (strikes, cyber attacks, natural disasters, regulation change etc)

7 control towers fully operational

End to End

Source > Make > Deliver > Plan

Suppliers

(Digital supplier interaction)

**Smart
factories**

(Smart factories)

**Smart
Distribution Centers**

(Global transportation control towers)

Customer

STRIVE for the best

Some self reflections...

- **Multi local** empowerment and more **regional** approach
- **Ecosystem partnership** with business partner **C-level** engagement
- **From Cost efficiency focus to Resiliency** focus
- **From Just in Time to Just in Case**

STRIVE for the best

Some open questions...

- If given a clean sheet of paper with no constraints, what aspects of your **value chain** would you **redesign**?
- How can we **collaborate across businesses** and together with the **public sector** to foster resilience?
- How to win the Supply Chain **Talent Wars**?
